SPECIFICATIONS

Overview

This 32 has been lift stored for the past two years. In 2003 Nordic Tug began loading these boats with a long list of standard equipment that was previously only available as expensive factory options. If you compare this model with a boat only a year older, you will see the difference.

This fuel efficient cruising vessel features classic Nordic Tug styling. She is built in the USA and is equipped with a standard 270 Cummins diesel engine. As with all Nordic Tugs, the 32 has a semi-displacement hull built with hand-laid heavily reinforced fiberglass with full keel and hard chine, giving her exceptional stability and handling qualities. This very popular cruising vessel features a roomy salon/galley and separate pilothouse with a 360 degree view and 6'8" headroom. Forward is an island berth stateroom with head and large separate stall shower. The roomy salon has a large settee that converts into an oversized double berth. She also features a removable mast with 600lb lifting davit and standard bow thruster.
