# DETAILED INFORMATION

---

## Accommodations

---

Captain, crew and guests can easily board from the Tide Ride platform on the port or starboard side boarding gates. Sliding pilothouse doors provide easy access to the updated lower helm station. An updated electronics array makes navigation a pleasure. A double bench seat gives the captain a commanding view of the voyage. Some pilothouse features include Naiad Stabilizers, Furuno, Northstar and Datamarine electronics along with the AC & DC distribution panel. A forward staircase provides access to all cabins and engine room. The aft door gives access to the galley, salon, and aft deck area. A beautiful stainless steel spiral staircase leads you to the massive fly bridge.

Wide side decks make for an easy, safe passage to the forward deck. The forward deck boasts a hydraulic windlass, several storage boxes along with large sun pad and forward seating area. 5 steps down from the pilothouse gives you access to the cabin's companion way. All the way forward is the crew quarters with over/under berths and separate head and shower. Behind the crew is a guest cabin to port with side by side double berths with abundant storage. Across is a day head with separate shower stall. Heading aft midship is a second guest cabin to port with side by side berths. Across to starboard is a linen closet and another head and shower. Moving aft you will encounter the port and starboard engine rooms with great access to all sides of the dependable Detroit 12V71 TAs. Behind the engine room is a huge vanity and closet area to port with owner's head to starboard. The head has a large jet tub with shower and upgraded countertops. The Master Stateroom is all the way aft and has a walk around island king berth. Other highlights include Toshiba flat screen TV, Birds eye maple counter tops and beautiful accent lighting. The eye catching, spiral stainless steel staircase allows for quick access to the flybridge. The central helm has electronic repeaters for all major pieces of navigation equipment. The captain has a 360 degree view of his voyage from the captain's helm chair. A forward and aft bimini provide shade to the enormous bridge. Features include custom wet bar with 3 pedistal chairs, sink, icemaker and refrigerator. The aft bridge deck can easily provide seating for a party of 18. The aft bridge deck supports a fiberglass skiff with Suzuki power. Aft of the pilothouse is the enclosed galley which has abundant light from the large port & starboard deckhouse windows. The fully equipped galley has a dinette to starboard which can easily seat six with pedistal table. The large u-shaped galley has tile floors with inlay and easy to clean countertops. All appliances are US speck and updated. Moving aft the salon features a dining area forward, wet bar across to starboard, two leather settees to port aft and two barrel chairs across. The aft door leads to the aft deck which has been finished with a teak sole and seating area for playing cards or dining in an enclosure.

---
