SPECIFICATIONS

Overview

This Junk was designed and built to discover the beauty of Ha Long Bay in Vietnam.

It was part of a fleet of 22 custom built Vietnamese Junks, especially designed to provide a private and very individual experience.

Each vessel explores a fusion between local Vietnamese heritage with 4-star quality amenities that you would find in any shore-based higher end accommodation.

All vessels contain a double 4-star hotel room with a balcony/swim platform at the aft and ensuite bathroom with toilet, shower and wardrobe. Crew (or kids!) and owners quarters are separated for maximum privacy and service.

The sun deck, on top of the vessel, is traditionally and tastefully fitted out and decorated with tropical hard wood and deck loungers. Also located on the sun deck are the open kitchen and food & Beverage area, which is covered by a fixed sunroof.

This unique concept with a very specific Asian look fits everywhere in Asia's stunning environments or beyond

DETAILED INFORMATION

Introduction

This unique Junk was part of a floating resort that was designed and built to discover the beauty of Ha Long Bay in Vietnam.

This fleet contains 22 custom built Vietnamese Junks, especially designed to provide a private and very individual experience.

Now each vessel is for sale and explores a fusion between local Vietnamese heritage with modern day, exclusive yacht building standard that results in a unique and limited edition vessel.

The yacht contains a large, private owners cabin with a balcony/swim platform at the aft and ensuite bathroom with toilet, shower and wardrobe. The Crew cabin is separated from the owners cabin for maximum privacy and service. However, this crew cabin can also be used as great Kids quarters.

The sun deck, on top of the vessel, is traditionally and tastefully fitted out and decorated with tropical hard wood and deck loungers. Also located on the sun deck are the open kitchen and food & Beverage area, which is covered by a fixed sunroof.

This unique concept of a floating resort with a very specific Asian look fits everywhere in Asia's stunning environments or beyond

Hull

The Junk is built in steel under Vietnamese class (Vietnam Register). All used steel is approved by Bureau Veritas and overall classification by Bureau Veritas is prepared and can be applied for if required.

The Junk has a lifting keel, providing a draft 1.95 m and only 0.9 m when lifted. With the keel down, the vessel performs well under sail, while with the keel up, shallow and remote destinations can be reached, providing great possibilities and variety in the fleet's sailing area.

The hull was sandblasted and coated in a mutual layer paint system for protection against corrosion. Recently the vessel has been repainted and 2 new layers of anti-fouling have been applied.

All through hull fittings are welded.

A manual anchor winch is installed on the fore deck.

Propulsion

The vessel is equipped with the following engine for propulsion:

Weichei / Deutz TD226B-4C2 turbo charged marine diesel engine

Rated output: 75 kW (100 Hp)

RPM max: 2100

RPM cruise: 1300

Connected to propeller shaft and fixed pitch propeller by gearbox.

Engine, gearbox and propeller shaft are well accessible for service and maintenance through hatches in the floor of the owners cabin.

Rigging

Where most current Junks, built for cruising, are rigged for decoration purposes only, this vessel is actually designed to sail.

The combination of hull shape, lifting keel and junk rig make the vessel perform well under sail.

The Junk rig contains three steel masts with bamboo booms in the sails. To increase the sailing performance, the currents sails should be replaced.

The standing rigging is a combination of stainless steel shrouds with traditional wooden spanners.

All running rigging is of natural rope and traditional wooden blocks.

Instruments

Installed navigation / communication instruments on board:

Furuno GPS Navigator GP-32

ICOM VHF 50 W radio

Magnetic Compass

All instruments are installed at the open bridge before the main mast.

Electrical Equipment

For power supply (230 V), the vessel is equipped with a Generator:

Brand: Kipor

Capacity: 48 kW @ 50 Hz

RPM: 3000

Situated on for deck, away from the owners area, in a sound and vibration proof cover and well accessible for service and maintenance. In addition a set of house batteries provides 12V DC when the vessel is in low power mode.

Safety & Fire Protection

Available Safety equipment on board:

1 Life Raft (6 pax)

4 Life Rings

7 Life Jackets

5 Portable ABC Fire Extinguishers

5 Portable CO2 Fire Extinguishers

1 Fire Hose

1 Fire Blanket

1 First Aid Kit

Fire Alarm / Smoke Detectors

Emergency Exits

Owners Cabin

This Junk has a spacious 32 sqm cabin with en-suite bathroom and balcony / swimming platform at the aft of the vessel.

The cabin is tastefully decorated in natural wood with carved details on walls, bed and couches and a two colored, wooden floor.

A separate living area with windows on each side and the large windows in the stern of the vessel provide a panoramic view.

Cabin facilities feature a comfortable queen size bed, air conditioning, heating and DVD/CD player with LCD TV.

Bathroom

The bathroom with toilet, shower and wash basin is connected to the guestroom and completely separated from crew access.

All tastefully decorated with hard wood and with a large cabinet for storage.

Crew/Kids Cabin

The crew area on board provides accommodation for 3 crew, with bunk beds and own head.

The crew area is situated in the bow, providing maximum privacy for the owner, while offering efficient service by the crew. In the event of use as a family yacht, these crew quarters are the ultimate kids cabin, where they have their own space for adventures and experiences on board of their own pirate ship or expedition vessel.

Galley

The galley is situated on the sundeck, between the terrace and the deckchairs.

It features a barbecue and gas stove, a top loading fridge and cabinets for all glass-, chinaware and cutlery.

All nicely decorated and efficiently integrated within the vessel's style and deck layout and well accessible for the chef.

The galley comes with an extensive inventory to meet all your needs, whether this is a quick and simple snack to an extensive seafood buffet.

Sundeck

The sundeck provides a total of 28 sqm of space on the top of the vessel.

This space is divided in a sun lounge area amidships of 18 sqm. with 2 deckchairs and a covered terrace at the stern of 10 sqm. for breakfast, lunch, drinks and dining, offering the utmost privacy and spectacular surrounding views.

The sundeck is tastefully decorated and fitted out with tropical hardwood, creating a balanced and complete experience for the owner and guests on this traditional junk.

Toys

The vessel carries on board 2 single kayaks, swimming ladder, snorkel, masks and fins as well as rod and hand reel fishing equipment.

The swimming platform at the vessel's stern provides easy access to all water sports.

Exclusions

Owner's personal belongings.
