Model: QSM 11

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

General Overview

Tiara Yachts is proud to offer another beautifully designed and constructed yacht - the 4400. A gelcoat outer layer, high-performance tie-coat quadaxial fiberglass, balsa core, epoxy resin, and vacuum bag technology lay the groundwork for a yacht that's unsurpassed in quality and simple quiet elegance. The long, sweeping deck of the 4400 is constructed with a gelcoat outer layer, hand-laid fiberglass and balsa core with vinyl ester resin. The beautifully crafted, custom-curved composite windshield is seamlessly integrated with the hardtop of the 4400. Behind the composite windshield, the 4400 incorporates a hinged helm console, with full engine instrumentation and an admiral full double-wide helm seat which is adjustable forward to aft, up and down. Intuitive design plus time-tested placement of gauges, throttles, and controls, ensure that being behind the helm is akin to a ride on cloud nine. The aft of the 4400 offers a standard swim platform, extending the 4400 by an extra 52 inches. This extra space provides room for a personal watercraft, an inflatable dinghy, and / or plenty of room for family and friends to enter and exit the water on a diamond patterned non-skid surface. Rear storage space is built-in and accessed through a hydraulically actuated fiberglass hatch. Belowdecks, the 4400 features plush leather seating, Corian countertops, stainless steel sink, abundant storage, and a built-in 39 "inch flat screen TV with DVD technology. The lounge features a folding birds eye maple / teak table which converts to berth, increasing sleeping accommodations to six. The master stateroom boasts a queen-size pedestal bed, with spring mattress, and storage below. The second stateroom not only comes with two overlapping, bunk style beds but also a combination washer / dryer. The second stateroom also has it's own access to the head. Recent upgrades include the following:

- Complete engine service to include after coolers, exchangers, air filters, fluids and belts
- Engine room detail/full paint job
- Full detail
- Complete air conditioning de scale and service on (4) compressors, hoses, etc.
