SPECIFICATIONS

Overview

Graceful and spacious, the Sunseeker 80 Yacht enjoys the same attention to detail and scope for personalization as the other graceful models in this range. Below deck arrangements allow for a full beam master, two double guest cabins, a VIP cabin forward and crew accommodation situated in the stern. With a cruising speed of 26 knots, range is around 350 nautical miles, but at full throttle the yacht will provide a comfortable 31 knots. She has a large flybridge providing separate helm position, ample seating and sunbathing space while the large aft submersible bathing platform provides plenty of space to carry a tender or jet skis.
