## Overview

---

'Red Sky' is truly an exceptional yacht from the design offices of German Frers and built by the world renowned Finnish yacht builder, Oy Nautor Ab, more commonly known as Nautor's Swan. 'Red Sky' was launched in 2003, this yacht has been professionally maintained from the moment of her christening by her extremely knowledgeable owner, captain and crew. Never raced or charter, 'Red Sky' has been maintained to highest standards to preserve her owner's enjoyment and investment.

In addition to her meticulous ongoing upkeep the yacht received an extensive 8-month refit at Maine's Lyman Morse yard in the spring of 2012, 'Red Sky' has undergone her annual pre-Caribbean servicing each year of her life by the same craftsmen. Absolutely everything has always been properly attended to, both aesthetic and functional, by an owner who wants everything kept in impeccably excellent working condition. The yacht now lies ready for her new owner in the BVI for the winter season.

The listing broker was project manager at the build and we have first-hand knowledge of her construction and sailing characteristics. The Captain aboard is also extremely knowledgeable and has been very hands on in all care of the yacht. Detailed maintenance and upgrade records are available.

Condition and valuation survey of May 2012 after the refit placed her value at \$9.5 million. Her realistic seller is looking to transition this yacht to an equally capable buyer and has set the selling price to enable a swift transaction. 'Red Sky' is a true showpiece suitable for the most discerning yachtsman.

---
