## Overview

---

Designed by renowned naval architect Michael Peters, the MPYD patent-pending, high performance "Stepped-Vee Ventilated Tunnel" (SVVT) hull creates the lowest drag coefficient of any mono hull in the world. This means increased speed, better fuel economy than conventional hulls, and all-around better ride. The invincible 36' Open Fisherman is available with twin or triple outboards. With top speeds in excess of 60mph (w/triples) the 475 gallon fuel capacity will get you to the farthest fishing grounds and back with speed and comfort. Beautiful fit and finish, state-of-the-art construction, and the implementation of the highest quality materials available. This combined with fantastic customer service and attention to what the customer desires separates owning an Invincible from the rest.

## Basic Information

---
