SPECIFICATIONS

Overview

She is designed by Frank Mulder, a world renowned Naval Architect, and has both remarkable calm water and rough water performance. Another remarkable feature of this vessel, is both the lack of any vibration and the incredible sound dampening that it makes it difficult to determine if generators or engines are running. She also features two beautiful queen staterooms, with the finest materials and appointments, along with all flatware, dinnerware, bedding and anything else one could imagine. It's all built in to this vessel! She is powered by twin Volvo IPS 600 's giving the Zeelander a top speed of 34-36 knots.

DETAILED INFORMATION

Accommodations

The interior of the Zeelander is a masterful use of space with characteristic levels of finish. The cockpit is so ideally positioned and carefully conceived that all the data is simply available to anyone familiar with a computer or a modern supercar. The instruments are logistically set out yet perfectly suited to the yachting environment in crafted stainless and waterproof monitors. The commanding helmsman's position affords excellent visibility and the choice of helmsman's seats which offer outstanding levels of comfort guarantee that both helmsman and guests are fresh and relaxed after a day's cruise. Throughout the interior use of lightweight cored construction and the richest materials mark this as a mini superyacht that promises to become the watchword for luxury and refinement.
