SPECIFICATIONS

Overview

COSALCO is an extremely well maintained vessel by a professional maintenance company. The 58 Sovran is the Flagship of the Tiara Yacht line. The Sovran is a very well thought out vessel from stem to stern driven by the latest and greatest marine technologies. The interior of the vessel is very large with all the head room you could possibly need. The fit and finishing are excellent. All the appliances and materials used on the vessel are the best you can buy and install in a vessel of this size. The engine room is very clean in design and all of the machinery is easily accessible. Powered with the Triple IPS Volvo 435's with the joystick, this vessel practically drives itself. Tiara also has a project captain that you can call to answer any question and give remote support no matter where you are. Tiara's support is incredible and responds quickly. If you haven't seen or been on a 58 Sovran, it is a must see! **COSALCO** is the finest example of all the 58 Sovran's on the market and will be the next boat to buy.

COSALCO has a 36-square foot fiberglass hardtop sunroof above the helm station that opens with a touch of a button giving tremendous visibility from the helm. The starboard window adjacent to the helm glides up and down providing the captain with even more visibility down the side of the hull. Fresh bottom job and the drive painted with Prop Speed (Nov. 2014)
