DETAILED INFORMATION

Vessel Walk Through

Entering the massive cockpit on this beautiful sportfish the first thing you notice is the size and the functionality of it. The cockpit sports teak covering boards, teak decks, teak transom and a teak Release fighting chair with offset pedestal. There are two 30 gal livewells built in the mezzanine as well as a stainless lined cockpit freezer and stainless drink box with eskimo dump. In deck there are two large fish boxes, as well as storage under the gunnels port and starboard. Under the air conditioned mezzanine seating there is ample storage space.

Entering the salon through the electric door you are warmly greeted by the very nicely appointed interior that has just been completely re-done. To port there is a u-shaped couch with storage as well as a teak cocktail table. To starboard is a 55" Sony LCD TV on an automated lift. Just under the TV area is a wet bar and subzero ice maker. Moving forward the galley is to port and has under counter subzero refrigeration and freezers, Viking convection microwave, built in coffee maker, wolf 4 burner cooktop, and an illuminated Italian aluminum backsplash. The dinette is to starboard and features all solid teak table and seating. Heading down the companionway to starboard is the Bosch Axxis washer and dryer and just aft is the crew stateroom with side by side bunks. Headed farther forward the master is to port with queen berth, etched glass head board, and large cedar lined hanging closets. The master head has dual sinks and granite counter tops. Back in the companionway going forward is a guest head to starboard as well as a guest stateroom with over and under bunks. All the way forward is the VIP with en suite head and queen mattress. Every stateroom has cedar lined closets and the entire cabin has new LED lighting and headliner.

Back in the cockpit headed up the teak step ladder to the bridge you are greeted by an air conditioned helm as well as custom teak decks. There are 2 Release helm chairs with teak footrest that were just re-finished. Forward of the helm is seating with a new teak cocktail table and a refrigerated drink box to starboard. All of the cushions were just replaced as well as a new Seacrylic enclosure. The teak helm pod has thruster controls in tips of the levers and Jastram steering.
