Introduction

This timeless Ed Monk design offers a unique combination of features that more manufacturers should pay attention to....The low profile, understated looks of a fly bridge sport yacht, plus the economical installation of Caterpillar C-18 engines for extended range, yielding the ability to attain 17 knots top speed when needed. Let's face it, with the price of fuel today, most boat owners and captains travel at displacement speeds most of the time, and **SEA LEAF** offers this dual combination and does so in elegant style! **SEA LEAF's** 20 Ft. beam, with full walk around side decks, gives one the feeling of a much larger yacht, yet from all angles of observation, this is truly a well proportioned yacht that looks stable and actually lives up to all expectations. Add to this, an elegant high gloss varnished interior with well chosen understated quality soft goods and you have discovered your next home away from home. If a motor yacht in this size range, with generous crew cabin for two aft, and state of the art electronics and more options than you can imagine, sounds good to you, then you must make an appointment to inspect **SEA LEAF** as soon as possible.

Construction

The hull and decks are carbon fiber infused with Airex PVC foam core above the waterline, and the hull bottom is protected by Interprotect epoxy anti osmosis system. Forward there is a reinforced collision bulkhead, tempered safety glass in all frameless windows, interior structural components all bonded to the hull, plus hard top. Sylomer floating floor system.

Design Features

Deep V forward with flared bow sections. Fly bridge with hard top and extended boat deck that covers the aft deck dining area. Full walk around side decks with deep bulwarks. Flush pilothouse doors and windows offering excellent sit down visibility from all seating areas. Very well proportioned, functional low profile silhouette that will remain in style and never have a dated look.

Interior Finish

High gloss varnished Sakura paneling and cabinetry throughout. Satin finish in the crew areas. Burl wood accent detailing in salon and staterooms. Salon circular stairway to the upper deck. Soft vinyl removable headliners. Settees with Ultraleather fabrics. Hidden hinges and push button handles for all drawers and cabinets. 24 Volt LED lighting throughout the interior and exterior of the vessel.
