SPECIFICATIONS

Overview

The Hatteras GT54 is the lightest, quickest and most nimble member of the new GT Series. Whether in the hunt for a trophy, or simply enjoying a fast day on the water, the GT54 delivers big.

Performance and styling are equally important to the tournament fisherman, and the new GT54 is designed for that customer. With over 50 years of experience building premium sport fishing convertibles, Hatteras has an unrivaled amount of knowledge when it comes to discerning the preferences of convertible owners.

Ride comfort and seakeeping in rough water are also a big part of our pedigree. The GT54 is a Hatteras in the purest sense. It can take abuse offshore and come out looking like it's in showroom condition.

Total Heads: 2

Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Engines: 2

Manufacturer: Caterpillar

Model: C-32

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Summary

In a world that all too often values flash and the fickle nature of the latest trends, Hatteras stays true to her American roots and provides a breath of fresh air.

I invite you to not only admire the handsome looks and refreshing interior designs...look behind panels, walk through the engine room, see what is not normally seen...the Hatteras quality goes far beyond a casual glance.

Rest easy. The boys in New Bern, North Carolina have got you covered.

- **Performance.** Cruise at 35 knots. Top end at 41 knots. Quick response and handling like a sports car.
- **Resin Infused Solid Fiberglass Hull Bottom.** Saves much weight over the traditional solid hull bottom while providing increased strength and rigidity to pound through rough seas without feeling the rattle effect...a Hatteras is solid.
- **Convex Hull Design.** Provides increased sea keeping attributes with a softer landing into seas and more interior space. translation: minimized smacking when running at speed
- **Prop Tunnels.** Provide a shallower draft, giving you the confidence to go where you want without worry. Also improve performance by allowing shallower shaft angles.
- **Exceeding all Industry Standards for Electrical Systems.** Safety and Reliability are TOP priorities, Hatteras surpasses the electrical systems requirements of the NMMA, ABYC and the National Electric Code.
- **Painted Exterior.** Aside from the brilliant shine that a painted yacht gives off, it requires less maintenance and is more durable than the cheaper gelcoat that other manufacturers use.
- **Fresh, Contemporary and Customizable Interiors.** Work with the Hatteras interior designer or bring your own. There are a number of different interior options to choose from and plenty of opportunity to make your Hatteras truly unique. Expect Hatteras quality here too, with real wood and leather and painstaking attention to detail throughout.

Exclusions

Owner's personal belongings.
