SPECIFICATIONS

Basic Information

Category: Center Console

Sub Category: Walk-around

Model Year: 2012

Year Built: 2012

Country: United States

Cockpit: Yes

Dimensions

LOA: 27' 0" (8.23m)

Beam: 9' 5" (2.87m)

Min Draft: 1' 9" (0.53m)

Speed, Capacities and Weight

Cruise Speed: 35 Kts. (40 MPH)

Max Speed: 53 Kts. (61 MPH)

Water Capacity: 40 Gallons

Holding Tank: 20 Gallons

Fuel Capacity: 200 Gallons

Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Engines: 2

Manufacturer: Yamaha

Model: 4-Stroke

Engine Type: Outboard

Fuel Type: Gas

DETAILED INFORMATION

History and Construction

The Albury Family has been building boats in Man O'War Cay, Abaco since 1952 one at a time. Their first fiberglass model was the 18.5' in 1985, 20' began in 1990, the very popular 23' was created in 1997 and the Albury Brother 27 CC hit the water in 2007. 2

Due to the demand in 2003 the Albury Family partnered to produce Albury Brother Boats in the U.S. with the same Albaco-Built Quality. The Quality of the materials and construction are all under the constant supervision and control of the Albery Family.

Albury Brother boats are quite heavy in the bottom and get progressively lighter above the waterline, resulting in a craft of moderate weight for it's size. The bottom laminate is over 1" thick, hand laid, solid glass. This heavy 24 oz. woven roving absorbs impact energy and creates the mass required to punch through waves.

The massive top-hat stringers are made of the same material, then fully glassed into the boat from stem to transom, chine to keel, and filled with foam. The hull sits in the mold at least 7 days, under vacuum, to ensure it's shape.

Above the waterline, a gradual shift in the lamination schedule takes place; from heavy woven rove to cross-linked PVC composite core and 17 oz. bi-axial glass. Strength is maintained while weight is reduced, resulting in a stable, well-balanced vessel, with a low center of gravity. At Albury Brothers, the liner is vacuumed to the hull and stringers to create a void-free, fully bonded structure. The deck and console are mechanically and chemically bonded to this structure. We attach the hard or T-top to our console, giving you more room with less to trip over. We also do our best to get rid of latches, hinges, screws, hooks, bungy cords, valves, etc. All of this fluff corrodes, deteriorates, loosens, breaks and requires maintenance. With a Albury Brothers Boat, the days of coming back from your summer cruise, with a long maintenance list, are over. That's why Albury owners keep their boats, year after year.

Engines

- Yamaha 250hp 4 Stroke Outboards
- Twin Gasoline
- Starboard 167 hrs.
- Port 166 hrs.
- Yamaha Smart Craft Engine Displays (2)
- Total Power: 500 HP
- Cruising Speed: 35 mph Maximum Speed: 53 mph

Hull & Deck

- Vinylester Resin Barrier
- Foam Floatation
- Self-Bailing Cockpit
- Macerated Fish Box
- Trim Tabs
- Under gunnel LED Lights
- Electric Pump Out Head under Console
- Multiple Tackle Center Storage Bins
- Fiberglass Hardtop with Rocket Launchers and Electronics Box
- Leaning Post back rest
- 30 Gallon Livewell
- Salt Water Washdown
- Folding Rear Bench Seat and Removable Backrest

Electronics

- Raymarine Radar Closed Array 48 Mile
- Raymarine Color GPS E 127
- Raymarine Dept Finder
- I-COM VHF Radio ICM504A
- Flush Mount Compass

Additional
