Deck Material: Teak

Hull Designer: Ron Holland

Engine Information

Engines: 1

Manufacturer: Volvo

Model: D4

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Broker's Comments

SAPPHIRE II is the most highly specified of her class to launch. She is full of custom touches, including an interior with teak floorboards and interior fit out and furnishings all designed by the Ken Frevoikh design office. She was conceived AND built for the World ARC which she completed happily and without efforts. She has been skipper maintained from Day One and she has been maintained regardless of cost. She is her owners' second Discovery and their close working relationship with the yard has produced a very special yacht. Around £500,000 was spent on the extras inventory in order to equip her to the highest standards in all respects. She is the perfect platform for blue water cruising in the utmost comfort and in great style.

Owner's Comments

SAPPHIRE II is a luxurious yacht that is a pleasure to sail. She is very safe, stable and sea-kindly. She can turn in 200+ nm runs day after day on ocean passages, or turn heads from admirers in Mediterranean marinas. In addition to her sailing attributes, which allow two people to sail her, she has been outfitted with just about all the creature comforts imaginable. Truly, SAPPHIRE II is a well-found home on the sea. And after two plus years of sailing, she performs better than ever!

Construction

RCD Status: The yacht conforms with the essential safety requirements of Directive 94/25EC (Recreational Craft Directive) and is categorised A – "Ocean."

Hull, Deck & Superstructure Construction:

- Hull moulding in Flag Blue inc. colour matched port lights, boot top lines in white and red, with gold cavita line.
- Copper antifoul.
- Boat completed to meet MCA specification to meet coding for 60 miles offshore. Includes, metal through hull fittings in engine room, upgraded pipe work in engine room, upgraded sea water chest, and upgraded sea water strainers.

Keel & Rudder:

- 13,200kg (29,400lb) performance shaped lead keel with 3% antimony hardening provides a ballast ratio of 39%.
- Semi balanced large kevlar reinforced rudder.

Machinery

Engine & Gearboxes:

- Volvo engine fitted to comply with USA emission standards.
- Temperature read out for engine room fitted at navigation desk.

Maintenance & Performance:

- All systems aboard SAPPHIRE II have been maintained in accordance with the manufacturer's recommendations.

- Stainless steel throttle control fitted to both helms, in lieu of standard TFX control fitted to starboard control.
- Optional Twin layout 32" wheel.
- Black carbon wheels fitted.

Note: There is an abundance of spare parts on board, which were never needed.

Electrical Systems

Voltage Systems:

- 220v 12/24 with the ability to receive 110v; Isolation transformer fitted to receive 110v

- 2 x Additional 220v sockets fitted behind starboard sofa.
- 2 x Additional 220v sockets fitted in locker inboard of navigation desk.
- 2 x Additional 220v sockets fitted outboard at utility area.
- Shaver socket fitted in all heads.

Battery Banks:

- 600Ah @ 24v.
- 200Ah @ 12v.

Alternators:

- 12v 60amp to charge engine start.
- 24v 110amp alternator to charge main 600Ah @ 24v battery bank.

Generator:

- Onan 13.5kva 50Hz generator fitted, upgraded to accommodate the upgraded air conditioning.
- Exhaust temperature alarm for generator.

Shore Power:

- Shore power sockets have small LED lights to show that they have power to them.

Other Electrical:

- All electric in-mast, foresail furlers and winches.

Plumbing Systems

Fresh Water & Water Heating System:

- Manual foot pump for galley fitted in the cupboard underneath the sink. Foot pump plumbed into the main galley tap, with a change over switch for emergencies.

Watermaker:

- Seafresh 104 litre/hr watermaker.

Bilge Pumps:

- 1 x Manual bilge pump operated from cockpit.
- 2 x High output auto electric pumps in main bilge.
- 1 x Auto electric in forward sail locker.

Tankage

Fuel:

- Total fuel capacity of 1,800 litres (395 gallons) in 2 x high density polyethylene tanks.
- 3 x Racor filters; pre-engine and genset.
- Genset runs off port side tank only; movement of fuel from tank to tank accomplished by fuel return plus manifolded piping with valves and a pump.

Fresh water:

- Spot filter provided for attachment to dock side hose.
- Compact hose provided to connect to dock side including connectors.

Grey/Blackwater holding tanks:

- Black water holding tanks for all three heads with electronic tank gauges.
- Tecma electric toilets in all heads.

Navigation Equipment

On deck electronics:

- 4 x ST70 multi-functional displays fitted. One fitted to each pedestal, and two fitted forward cockpit starboard side. In lieu of the standard three ST60 instruments.
- ST70 fitted at Navigation desk.
- ST70 pilot head fitted to each pedestal in lieu of the standard ST7002 plus fitted to one.
- E90W fitted to starboard pedestal.
- Additional E90W chart plotter fitted to the port pedestal.
- Engine data from Volvo engine linked to the Raymarine chart plotters.
- Icom 802 (Non UK approved) SSB including Antenna tuning unit, upgraded backstay with isolators for aerial. Suitable for US spec boat.
- VHF Simrad RS87, with station at pedestal, in aft cabin, at nav desk and in skippers cabin to act as an intercom.

Navigation desk electronics:

- Handheld remote control autopilot mounted at chart table - Raymarine smart pilot controller.
- Raymarine E120W touch screen fitted at the navigation desk.
