SPECIFICATIONS

Overview

Acknowledged to be one of - if not the finest - Windy hulls for sea-keeping - the Bora just slices through the water. With a huge sunseeking cockpit and 40 knots on tap - this is simply an ideal large sportsboat with useful accommodation and a dinghy garage.

- Fridge in galey and in cockpit wetbar.
- Electric winch in tender garage.
- Camper cover.
- White harbor cover.

Construction

Windy are a product of traditional craftsmanship, enhanced with the aid of modern technology.

The latest technological innovation is the Wintec hull concept, which gives improved performance, greater strength and reduced noise throughout the vessel.

The hull is reinforced with advanced multi axial glass fibre matting and Divinycell core. This allows a reduction in the boats weight of up to 20% whilst offering noticeably improved stability.

All the Windy models are CE-labelled. This means that Windy meets all the requirements laid down for quality control documentation and product liability within the EU. In the process of obtaining approval, the company has also introduced new methodologies, construction principles and more advanced construction production equipment, resulting in more cost – effective and quality oriented processes in – house. But above all, Windy is a “Boat Builder” and not a manufacturer of boats, a philosophy, which characterizes their production staff and all those within their distribution network.

Construction details:

- The hull and deck are white GRP.
- Cockpit and bathing platform are teak laid
- High gloss interior joinery with blue and gold fabric cabin upholstery
- Dinghy garage with rollers

Machinery Details

- Volvo Penta – 2 x Volvo KAD 44 DP
- Engine hours – c. 430 @ June 2014
