Fuel Capacity: 220 Gallons

Accommodations

Total Heads: 1

Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Manufacturer: Yamaha

Model: 4-Stroke

Engine Type: Outboard

Fuel Type: Gas

DETAILED INFORMATION

Introduction

Pursuit has roots in the boating world dating back to 1955 and introduced the Pursuit fishing boats in 1977. They have expanded their line of Center Console high quality boats ever since. They are built in Florida and are industry leaders in boat design and quality manufacturing.

The evolution of their designs in center consoles is very apparent in this the 280 CC Model. There are creature comforts that appeal to the entire family for a pleasurable weekend. There is also full amenities to satisfy even the pickiest of anglers. The helm seating has flip up bolsters for comfort seating or standing. The helm is laid out for visibility and has ample room for your electronics and gauges. Just aft of the helm seat is a lighted live well at a nice height to retrieve bait in a heartbeat. The transom rigging station is a nice set up. There is another live well transom fish box and a prep station and removable tackle boxes. There is also some molded in cut out designed to hold knives, pliers and such. The aft fold up seat tucks neatly into the transom to be out of the way or drops down to sit and relax. There are two in deck fish boxes on either side of the helm equipped with a macerator pump. These are insulated to hold your ice and keep that catch fresh. Behind the helm is a convenient compartment for your mechanicals, thru hulls, batteries and fuel filters. On the fore deck in front of the console is another large in deck storage box. To either side are two molded in seats and a beautiful teak table. The seats have storage under each to stow your gear away. Just aft under the forward facing seat is another insulated storage or ice box.

In the console there is plenty of room for more storage and a manual pump head with holding tank and pump out capabilities.

Up front tucked under a hatch cover is the anchor and windlass. This makes for easy deployment when you find that right spot.

This boat is equipped with twin Yamaha 250hp four stroke motors that run efficiently and quietly. She will top out over 50mph and the sweet spot at 3000 rpms going about 26 mph burning only 13.6 gph...

The current owner wants this boat gone now. Come take a peek and be ready to drive her away.

Hull, Deck & Cockpit

- Two 1/2" 316L stainless steel stern eyes and 5/8" 316L stainless steel bow eye
- Reinforced infused FRP one-piece stringer grid
