---

## Engine Information

---

**Engines:** 2

**Manufacturer:** Caterpillar

**Model:** 3126 TA

**Engine Type:** Inboard

**Fuel Type:** Diesel

---

## DETAILED INFORMATION

---

### Walk Through

---

The salon is entered from the port side of the aft deck via a sliding companionway door (which also has an incorporated screen door). Down four steps and you are standing in a beautiful salon surrounded by a rich cherry wood interior.

The salon features a large L-shaped settee aft on starboard, which will convert to a marine queen berth. There is a small table in front of the settee with storage beneath, that cleverly converts into two seats with cushions for use at the dinette. The dinette is located at the forward end on the salon on port, with L-shaped seating and a large cherry wood table. Aft of the dinette is a large bureau/entertainment center with flat panel tv, sound system and numerous storage lockers.

Moving forward, there is one step down into the galley area. The galley is located on the starboard side and is U-shaped. The cabinetry is cherry wood and counters are solid surface grey sandstone. There is a large single basin stainless steel sink with cover and a faucet with pullout sprayer. The glass cook top range has three burners and there is a flush mounted convection microwave. The refrigerator is aft in the Galley and has an upper freezer. There is tremendous storage above and below counter level including a pullout pantry to the right of the refrigerator.

The guest stateroom is in the bow and features an offset marine queen berth, two hanging lockers, drawers and storage under the berth and private access to the forward head. Once again the area is finished in cherry wood with plenty of natural light from the overhead hatch and in-hull portlights. The forward head can be accessed from either the galley area or the guest quarters and has a stall shower with bi-fold door, vanity with molded-in sink, vac-u-flush head and mirrored medicine cabinet.

The master stateroom is accessed from the aft end of the salon and down three steps. There is an island marine queen berth to starboard with numerous drawers and lockers beneath. Forward to starboard is a full length hanging, with cedar lining. There is a small shelf at the head of the berth and another smaller locker aft on starboard. On the port side of the stateroom, there is a split head arrangement that has the toilet and sink forward and a large stall shower aft. In between, is a second hanging locker with flat panel tv above.

### General Features
