Manufacturer Provided Description

The Endeavourcat 30 Mk II offers a perfect blend of spacious interior accommodations and performance for the cruising family. The shoal draft and moderate sail plan allow the cruiser to explore areas inaccessible to the average boat. Based on the highly successful Endeavourcat 30, the new Mk II incorporates some very exciting features which will

increase the "livability and cruising" potential immensely. The interior improvements include 6-foot headroom and enlarged seating in the salon, with increased window area for more visibility and light, as well as increased water tankage. An extra 22 inches of waterline improve speed and ride. Twin Volvo 9 hp diesel inboards with sail drives make this catamaran easy to maneuver in tight places. With these features combined with the already proven attributes of the original Endeavourcat 30, the Endeavourcat 30 Mk II is known as the "the ultimate family cruiser." All Endeavours 30 MKIIs are manufactured to standards approved for ABS certification.

Accommodations

The large cockpit of this catamaran flows directly into the salon via the retractable coach roof making it very comfortable to relax and enjoy the spacious salon. With a wrap around settee you can sit back and take in the views. The galley down arrangement to port is clean and efficient with plenty of storage. With two queen berths, one in each hull and a full walk in shower and head this boat feels like a much larger boat.
