SPECIFICATIONS

Overview

A perfect blend of history and Innovation Riva Iseo, a 27 foot day cruiser destined to become a must-have for lovers of design and boating on lakes as well as in the open sea. Iseo is an owner operated vessel with distinct characteristics, elegant features and ease of transportation. The new Riva Iseo is an important innovation for the celebrated nautical brand due to its size and design elements. The new model has been devised so the owner can "live" his boat in any event. The Riva Iseo has its own custom-made car-trailer, allowing for easy transportation of the yacht, wherever its owner wishes to go. The yacht will also be available in a hybrid engine version utilizing Ferretti Group's revolutionary ZEM (Zero Emission Mode) cruising option, which will not compromise speed, while using high-powered diesel propulsion in combination with the electric one. The Riva Iseo is the very first yacht of its kind to be equipped with the Apple iPad platform while it also utilizes GPS charts. This software has been specifically designed for Riva Iseo and also features a number of interesting applications, such as browsing the Riva Iseo owner manual, viewing the weather forecast and other information in addition to the pleasure of listening to live stream radio, TV or one's own playlists with high quality sound.
