DETAILED INFORMATION

From the Stern

The XL swim platform features a pull-out boarding ladder, plus room for an inflatable dinghy (the dinghy and davit system pictured does not convey with the boat). The dockside water connections and twin 30 amp shore power connections are all conveniently located here. There are electric Cable Masters for each shore power cord. The hot/cold transom shower is conveniently located on the swim platform.

The Lazarette storage compartment is also accessed from here. Raise the aft deck and you now have a huge access hatch into the engine room. A stbd side transom door allows for easy access into the lower cockpit.

Cockpit, Helm Deck and Electronics

The cockpit is one step down from the helm, lending a nice bit of separation to this large space. There is **NEW** lay down cockpit carpeting and all eisenglass was replaced in 2012.

The full enclosure makes year round enjoyment of the boat possible.

There is a cockpit wetbar, featuring a fresh water sink, dual voltage refrigerator and storage compartment. Speaking of storage compartments, there is storage **EVERYWHERE** on this boat. The utilization of space is tremendous, and all is easily accessible.

The helm deck has a large C-shaped passenger seating area with a table, on the port side. These seats are raised so that passenger visibility while underway is very good.

The side-by-side helm seats offer flip-up bolsters and unobstructed views while underway.
