SPECIFICATIONS

Overview

MERLIN has been maintained by her skipper plus crew; as the vessel is moored outside his house in Port Lincoln and has been under constant care by this dedicated team. She has been lifted out of the water each year for antifouling since we have had her over the last 5 years, plus any other required maintenance or repairs. MERLIN has had much of her equipment either updated or replaced as and when it has become necessary.

Major work has been carried out on her engines and all areas of the engine room including the fuel system. All the battery's were replaced in March 2014 at a cost of \$10,000 plus whatever else became necessary to do, was done.

Basic Information
