SPECIFICATIONS

Overview

Built by Rayburn Custom Yachts, this well-appointed vessel features four private staterooms with four en suite heads, and a crew's quarters/storage area. *Allante* has received considerable recent upgrades by Platinum Marine Services, in addition to NEW electronics by Raven Marine. She boasts a rich cherry wood interior, with high-end materials used throughout her spacious Flush Deck design.

Her layout consists of four staterooms each with their own ensuite head! The master stateroom typical of a motor yacht has it's own private entrance and is located aft of the engine room.

A few of her luxury elements include a Hot Tub on the upper deck, Stabilizers, Watermaker, 3 Helm Stations, Bow/ Stern Thrusters, Nuheat radiant floors, and remote control blinds/shades. This vessel has been brought up to standards beyond her original high-quality build, creating the ideal yacht for both cruising and entertaining.

Fuel Type: Diesel

DETAILED INFORMATION

Specifications

Accommodations

Boarding this vessel is easy thanks to her original owner's request for *Rayburn* to extend the swim platform, and add removable stainless steel staple rails. There are two stately curved staircases leading up to the California deck, featuring a SeaStrike Marine table and large settee. Conveniently located in a portside locker is a walk-around handheld steering/thruster control.

Upon entering the dual stainless steel sliding glass doors, one is immediately impressed by the yacht's spacious feel and updated interior. Her expansive windows w/remote privacy shades invite the outdoors in, while the 'Wyland' sculpture accents the stunning cherry wood artistry. The open concept is perfect for entertaining; visually the large salon flows into the formal dining room and beyond. The modern Galley is ideally located midship and features ALL stainless steel professional appliances. Upgrades include a Miele dishwasher and a Broan trash compactor.

The Pilothouse is awe-inspiring with her NEW electronics, impressive full-width electrical panels, and 'Wyland' painting. Positioned well forward, it provides for outstanding visibility underway. The redesigned dash easily accommodates the three 22-inch flat screen monitors and extensively upgraded redundant systems. The two Stidd helm chairs and large raised settee w/table provides plenty of seating for family and friends, ideal for whale watching!

Forward and downstairs from the Pilothouse are three en suite guest cabins with exquisite woodwork and heated floors. In the bow, a large VIP stateroom with an island queen berth. Moving aft are two additional staterooms on the port and starboard sides of the vessel. Both contain 2-twin berths providing for flexible accommodations; ideal for large families. All cabins have private heated marble floor-lined heads. A whirlpool washer and dryer complete the guest quarters.

The full beam master stateroom is located aft with its own stairway, providing maximum privacy for both owner and guests. Beautiful cherry wood cabinetry w/matching electronic blinds surround the king size berth. FRETTE linens and Nuheat radiant heated carpet enhance the warm décor. A cedar-lined walk-in closet, mirrored vanity, settee/desk/entertainment niche and 'Wyland' artwork complement the private luxury suite. An expansive master head featuring heated marble floors, an oversized marble rain shower, and double sinks complete the spa-like retreat.

- CruiseAir air conditioning system throughout
- Glendinning Cablemaster (both Port and Starboard sides)
- Fire Suppression System

Mechanical Details

The owners of *Allante* have left nothing to chance when it comes to cruising safety and vessel maintenance. The vessel is fully equipped with redundant systems, and the 1200-hour service recommended by MAN engines was recently completed. During this time, they requested all four turbos be rebuilt as well. Maintaining systems is effortless in her well-designed, walk-thru engine room featuring a color camera monitoring system. Most will appreciate how quiet *Allante's* is underway with her MAN engines and underwater exhaust. Deck and Topsides

The vast upper and lower decks are finished with MarineDeck 2000, a highly durable cork based decking product. It offers the rich, traditional look of teak without the high maintenance. The extra-long, Hardtop covered Bridge deck of this vessel is ideal for entertaining outdoors or simply relaxing. The large L-shaped settee is centrally located, perfect for cruising or dining alfresco. Features to make entertaining a breeze include a built-in Force 10 BBQ, Wet Bar/Mini-Frig/Icemaker, Sound System w/remote and year-round favorite--- a Hot Tub!

The upper helm also benefits from being far forward and features all major electronics repeated. The tender is a 13' Novaurnia MX360 w/50hp HONDA four-stroke motor. It's located aft and is easily lifted by the Steelhead 1500 Davit. There is a removable stainless steel rack available for additional "toys." Located on the yacht's bow are two small canister life rafts and a sunbathing

pad. Comments

The current owners recently completed their dream of cruising in the Pacific Northwest. *Allante's* excellent systems and optimum size enabled the couple to operate the vessel on their own. This beautiful yacht is turnkey and ready for her next owners; they too will benefit from her recent refit, and likewise explore the seas in comfort, safety, and style. She looks and feels like a classic, quality yacht throughout; you'll be hard pressed to find a better value in an 80' yacht on the brokerage market at this time.

Exclusions

Owner's personal belongings.
