Engine Information

Engines: 2

Manufacturer: Yamaha

Model: F 250 TXR

Engine Type: Outboard

Fuel Type: Gas/Petrol

DETAILED INFORMATION

Manufacturer Provided Description

Based on a deep-V design from award-winning architect Lou Codega, the 29 FS was built around its power plant - a pair of Yamaha F250 4-stroke engines - delivering all the hardcore performance required. A focal point of the 29 FS is the helm that offers a full-array of electronics storage and wiring access from inside the console. The console unit also provides a marine toilet with generous 6'3" headroom, featuring a completely finished fiberglass interior. The aft cockpit is wide open and clean, with ample room for your crew to fish and work together. Storage space is plentiful aboard the 29 FS with a 520-quart, insulated fishbox situated center and forward in the cockpit that doubles for an eight-unit rod locker. The 200-quart insulated lockers that flank either side can be used for fish boxes or dry storage. In addition, there's a 64-quart beverage cooler tucked beneath the forward console seat, and moving aft, two side lockers that each hold a five-gallon bucket. Sure-to-please options include the new bright dipped anodized or optional white power coated T-top frame and rocket launchers, new fiberglass top with integrated spreader lights with LED lighting built in, plus optional 16-foot Lee Sidewinder outriggers and an add-on five-rod rocket launcher. The optional stainless steel Edson wheel with power knob and Teleflex power-assist steering will appeal to performance enthusiasts.

Electronics

- Displays: Twin Furuno MFD 12 Navnet 3D (with software update)
- GPS: Furuno GP-330B
- Sounder: Furuno DFF1
- Transducer: Through-Hull
