Fuel Type: Diesel

DETAILED INFORMATION

Accommodations

The port hull starts forward with a locker in the forepeak which is accessed by a deck hatch or a small door from the forward cabin. This cabin contains a double berth with a large storage cabinet below, a hanging locker, shelf and a small cushioned seat. Aft and inboard is a head and shower unit followed by the steps up to the salon. The aft cabin has a queen-sized berth placed aft and with two storage cabinets beneath it, a hanging locker, 2 bookshelves and a cushioned seat.

The starboard hull starts forward with a locker in the forepeak which is accessed by a deck hatch or a small door from the forward cabin. This cabin had been converted by the builder into a convenient and practical utility room/workshop and contains a large work surface inboard with storage shelves and wire basket drawers above, generator below. The top opening freezer is set into the work surface forward.

Aft of the utility room is a head and shower unit located inboard.

Most aft is the third cabin with a queen-sized berth placed aft and with 2 storage cabinets beneath it and a large desk/chart table.

On the bridge deck, the I-shaped galley is on the starboard side with the twin, round stainless steel sinks aft, 3-burner propane cooktop forward with microwave oven built in below. Next a stack of 3 drawers and the double, top-opening refrigeration unit is forward on the centerline. There is cabinet storage below the sinks and microwave. The c-shaped settee is central and curves around an oval dining table with a fixed bench seat on the open side. The navigation station is last on the port side, using the end of the settee as its seat. A sliding door opens the salon to the cockpit.
