Set of Jacklines

---

Emergency Tiller

## Construction

---

The Tayana 37 hull is built from solid GRP, generous amounts of glass is used, the hull is 3/8" thick at its sheer. Perry has been quoted as saying there has never been any consistent structural problems with the boat. The deck is balsa cored to save on topside weight. The ballast is cast iron and internal to the keel cavity and glassed over. The hull-deck join is built into a strong hollow box section, which forms a high standing bulwark.

## Exclusions

---

Owner's personal belongings.
