Accommodations

2 generous cabins with en suite bathroom & showers, beautiful teak & holly wood floors combined with ample storage for both owners and guests seeking the weekend boating experience.

- 1 Queen master forward
- 2 twins in the guest cabin aft

Master Cabin

The large and spacious master stateroom has an abundant amount of overhead storage that adorns the queen berth with a gorgeous headboard. The berth has two-sided accessibility and a deck hatch that brings in plenty of natural light. Of course, no luxury suite is complete without a flat screen TV and separate AC controls. In addition to the overhead storage, there is a large hanging closet, and a large easy-to- access storage compartment. Additionally accessible storage is found under the V-berth, which lifts easily with the help of two gas assisted shocks. The spacious head is fitted with a beautiful glass bowl designer style sink. The enclosed shower keeps the water where the water belongs making for simple housekeeping.

Guest Cabin

Tucked behind the galley is a full size guest cabin, complete with its own head. The cabin has two twin berths that can be converted into one queen berth if necessary. There is plenty of storage for your guest's overnight bags. The head also has a touch of luxury with a glass bowl sink and separate shower. Normally on a boat of this size, the guest quarters are small or are not

private, but Volvo's new IPS system has allowed Tiara's engineers to use their imagination and deliver a beautifully designed guest quarters.

Galley

The chef in your group will enjoy the huge L-shaped galley with full refrigerator and freezer. There's a built-in spice rack, two stainless steel sinks, two-burner electric stove, and a microwave.

BRIDGE

Panoramic View: The port side raised lounge allows your guests to see 360 degrees with the theater seating. You will also find a great place to store your charts safely under the heavy duty fiberglass lid. With the push of a button you can move the captain's chair up and down or back and forth, to insure that you are in complete comfort while skippering the boat. The large classic white helm has plenty of room to host all of your Raymarine suite.

Cockpit & Swim Step

The swim platform has large low-to-the-water stainless steel cleats so that you do not have to jump over dock lines when getting on the boat. The four built-in U-shaped cleats make bringing along your dingy easy.

While on the swim platform, you will be able to access the watertight storage trunk that's large enough to hold 6-8 fenders and your dock lines, or you can use the three-step integrated swim ladder that makes getting out of the water easy.

No luxury yacht would be complete without a "Shore Master" system to help reel in your shore power cord. Accessing the cockpit is easy through the transom door from the swim platform or from the two-step wide gunnels. Once in the cockpit, you'll be able to enjoy alfresco dining in the U-shaped lounge with removable table. Drop the table down and you have an oversized sun pad to help soak up the sun. The large hardtop has built-in deck hatches with easy to use screens and sunshades so that you can enjoy the summer's breeze. If that is not enough air, then with a push of a button, the power window vent will maximize your air flow needs.

Engine Room

Engine Room: Accessing the engines is as easy as pushing a button. The U-shaped seating in the cockpit lifts to reveal the Volvo IPS system. There are no cushions or table to remove making for a simple operation. Looking at the engine compartment you will definitely notice that there are no drive shafts or transmissions, and that the IPS system gives the engine room a clean look.

Along with a clean look, maintaining the engines is easy because they can now be accessed from all sides and the Reverso Oil Change system allows you to change your oil with the flip of a switch.

Electrical

- ONAN 11.5 KW GENERATOR IN SOUND SHIELD (457 HOURS)
- ELECTRICAL SYSTEM: 12VDC & 110VAC
- SHORE POWER SYSTEM: SINGLE 50 AMP. 220VAC
- BATTERIES: (8) GROUP 31 LEAD ACID BATTERY VAPOR TIGHT (NEW 2013)
- NEW 110V AC BATTERY CHARGER (9/2014): 100 AMP. CENTAUR ENGINE ALTERNATOR: 81 AMP.
- WIRING: MULTI-STRAND PLASTIC COATED COPPER
- NEW STARTING BATTERIES (9/2014)

Notable:

- UNDERWATER LIGHTS
- NEW RAYMARINE HD RADAR
- CLEAN HISTORY
- NEW AC PUMP 2014
- NEW BILGE PUMPS 2014
