Dimensions

LOA: 60' 0" (18.29m)

Accommodations

Total Cabins: 3

Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Manufacturer: Caterpillar

Model: C12

DETAILED INFORMATION

Manufacturer Provided Description

If you can picture the azure waters lapping at the sun-drenched beaches of the Greek Islands, then you'll understand the inspiration behind the A60 Aegean Flybridge. Named after the Aegean Sea, it has all the style and luxury you would find in the glamorous European ports along the Mediterranean, and its beautifully styled open flybridge can actually heighten the enjoyment of paradise. Whether cruising at the helm or anchored at a favourite hideaway, the elevated position offers uninhibited views and the perfect place to laze under the sun.

While the guest naturally gravitate to the exhilarating flight deck, the lower helm station offers a sanctuary from the elements. However, there's no compromise on the view from the leather upholstered helm seats. In fact, visibility is 360 degrees, making driving and docking easy and safe. What's more, easy access to the walk-around decks is provided with a sliding door at the helm. And because the A60's lower helm is subtly integrated into the living space, you're never far from the party - even when cruising.

As majestic as it appears at the dock, it's only when you unleash the A60 at sea that you appreciate how much a motoryacht's 'ride' can contribute to the pleasure of cruising. Designed with an advanced variable deadrise hull, engines and fuel tanks over the centre of buoyancy, and a propeller shaft angle of just 9 degrees, the A60 has effortless poise and balance - and uses less fuel as a result.

Construction

- Variable dead rise Deep V hull with moulded spray rails
- Hull - Solid fibreglass bottom with cored topsides
- Main bulkheads free standing fibreglass
- Deck & Wheelhouse - fibreglass with core
- Water tight collision bulkhead
- Tank - Fuel Integral GRP - Meets CE requirements

ENGINEERING

- Engines, primary - 2 x Caterpillar C12 - 715MHP with power steering pump fitted
- Acoustic Insulation
- Air conditioned all cabins reverse cycle - 70,000 BTU
- Ball valves and skin fittings 316 stainless steel below water line
- Bilge pumps - 3 x auto out & 3 x manual bilge pumps to CE requirements
- Controls - dual lever electronic single station

- Checker plate floor between engines
- Engine Instruments - electronic dual station
- Engine bearers - moulded solid fibreglass
- Flexible engine mounts
- Engine exhaust risers and Aqua lift mufflers
