Manufacturer Provided Description At 40+ knots the 630 will be the fastest, strongest Bertram ever! From our first innovative Deep-V design to the many advancements that have pushed the evolution of the modern sportfish, Bertram Yacht has been first. Our New Bertram 630, a direct descendent of the Legendary Bertram 54 and 60 platform, has over 40 new improvements along with the sleeker profile, luxurious amenities, and the exceptional build quality found in all of today's Bertrams. Our first Priority: a pure fishing machine - More space, larger Storage, improved lines of site and even better real world performance in terms of speed balance and maneuverability. The new 630 is the first in its size to incorporate the cockpit clearing, safer stairway to bridge design. The same design found on the flagship Bertram 670. The 630 will be available in a 3 or 4 stateroom layout with either salon A or B arrangement on both the open and enclosed bridge models. The 630E enclosed bridge model will offer the new direct salon to bridge access now available on the Bertram 670 enclosed bridge. Whichever weapon you choose, you can be sure it has been designed and built to work in the most extreme environments. It has been tested beyond its limits by the world famous Bertram New Product Development Team. You can be sure that the latest computer-aided design, newest FRP technologies and traditional handcraftsmanship have gone into this all new warrior. You can be sure that the industry's largest marine resource is behind you and you can be confident that you are in the best position to finish in FIRST. It is of course a Bertram.
