SPECIFICATIONS

Overview

The 350 Catalina is one of the most popular Chris Crafts ever made. Built on a solid-fiberglass, low deadrise hull with a wide beam, the 350 has an enormous interior for her size as well as an entertainment-friendly helm - aft deck platform. This is a warm, very roomy and very comfortable boat, with full standing headroom everywhere (6'4"). This is a true live-aboard boat, with an interior roomy enough that long periods aboard even in bad weather are easy and pleasant. She'll sleep six comfortably.

They don't make boats like this any more, with solid heavy construction, good materials, designed and made with care and attention to detail. Her interior accommodations include a spacious main cabin with AC and huge windows. Windows are large and open, providing plenty of light and fresh air. The salon has an Island feel. The full galley has large counter space, a sink, a Princess 3-burner electric stove and oven, a microwave, a refrigerator with freezer, and cabinets above and below. There is also an ice maker and coffee maker. There is a 5 gallon hot water heater and a pressure tank to maintain even water pressure. There are two roomy staterooms each with two built-in berths, plus storage under the beds, a full-size closet, and a cabinet. The head has cabinet storage and plenty of counter space, a stall shower enclosure, sink and marine toilet.

The engine room is large, and full access to both engines is available by taking up two floor panels. Topside, the helm is level with the aft deck, so the helmsman isn't separated from the passengers. In addition to the captain's and mate's chairs, there is ample room for two or three other chairs and a cooler to keep drinks handy. The windshield opens from the top, so they can usually remain somewhat open for fresh air even in the rain. The top comes down to make it a good sized sport boat atmosphere. Full canvas protects the deck. She has full walk around decks and a large foredeck with built-in seating, and a large teak swim platform with ladder. She will cruise at 12-15 knots with a top speed in the upper teens to low 20's. She is powered by chevy V-8 350s. The boat is very comfortable under way, handling reasonable weather well and only occasionally landing spray on the deck. Trim tabs, windshield wipers, and horn are also on the helm. These Chris Crafts were built with longevity as the result if not the goal at the time. They are very user friendly with easy line handling set-up for the crew. This Chris is stored for the winter, but access can be arranged for a visit.

Basic Information

Category: Cruiser

Model Year: 1974

Year Built: 1974

Country: United States

Dimensions

LOA: 35' 0" (10.67m)

Beam: 13' 1" (3.99m)
