## Overview

---

The Pershing 74' is a contemporary and modern restyling of the unforgettable Pershing 72', a status symbol of the brand, created by yacht designer Fulvio De Simoni, in cooperation with Ferretti Group's AYT (Advanced Yacht Technology) and the team of architects of Centro Stile Ferrettigroup. Measuring 74 feet in length and 18 feet wide, this new model can reach a maximum speed of 44 knots, while maintaining a high level of comfort.

The Pershing 74 features a design characterized by light and cutting-edge technology. Its distinctive personality is immediately perceivable from its external profile, which is even sleeker and more slender than that of its predecessor thanks to the new shape of its larger side windows and a more elongated superstructure, with a sundeck fitted with an electro-hydraulic staircase that can be hidden away into the overhang.

The 74' features one master cabin and two guest cabins and can accommodate 6 passengers and two crew members, thanks to its below-deck layout, which grants unmatched onboard comfort. Strong character, volumes and plenty of light are showcased throughout the craft and thanks to these outstanding features the Pershing 74' has become one of the leading models in the range, having all the stylistic features that make this brand unique worldwide.
