## Overview

---

Great emphasis has been placed on design-in both the proportions and lines. While the hull is built to ensure performance, reaching top speeds of 34 knots, the styling, through a retro-modern look, conveys strength, power and stability. This strength and power refers not only to performance, but also to the feeling of confidence the boat bestows on its occupants. All details, large and small, were conceived to reflect substantial yet elegant underlying structures, resulting in an overall stable platform that is flexible enough to be modified depending on the use of the boat.

ISOLARE lends itself well to entertaining. Whether a group of guests or a family is on board, the layout makes certain that everyone is safe and comfortable while enjoying the surroundings. Below deck, she provides the ambiance and comfort of a large yacht due to its volume and details. Although the layout was built to entertain, the hull was built to perform, comfortable in heavy sea conditions, thus making it the perfect weekender or sport fishing boat. All seating on deck can be easily removed or reconfigured to allow alternative layouts, including the function of the on-deck BBQ grill, which can be changed to a wet bar or a fishing/bait station. No space is wasted, and there is ample storage both on deck and below, in addition to convenient room for mechanical equipment access. ISOLARE has always been under the care of knowledgeable yachtsmen and initially as a Rivolta Yachts Show Boat and factory demonstrator. It has benefited from their special attention and expertise. In 2012, Isolare was purchased and immediately personalized with flag blue awlgrip, complete electronics package, full Isenglass enclosure, stern thruster and a huge sliding roof hatch, inverter, solar panel, and much more. She has since cruised comfortably in the Bahamas and from the west coast of FL to ME.

## UPPER SALON/ HELM STATION

Fiberglass instrument console

Chart compartment with smoked Plexiglas enclosure

Separate Mechanical room & storage compartment

Compass

Yanmar engine control panels

Starboard and port helm seats

(2) Stereo speakers

Companionway doors

Lighted companionway steps
