DETAILED INFORMATION

Accommodations

As you enter the cabin, the first thing you notice is the abundance of natural light. Floor-to-ceiling glass sliding doors are at the aft. Windows run along both sides, including a pair of opening panels, and a vast expanse of glass comprises the windshield.

Forward and to port, the L-shaped seating group is placed on a pedestal to create the dining area, which features a solid cherry table on a fixed base. Opposite, there's a sofa that converts to a double bed. A cabinet in the aft port corner of the salon houses both the boat's main electrical panels and the entertainment center. A TV, along with a Bose AM/FM CD/DVD player with MP3 capability, comes with the boat.

The **galley** is a step down from the salon and open to it. Standard appliances include a two-burner range, microwave/convection oven and under-counter fridge with a separate freezer.

Forward is the **master suite** that features a pedestal berth with innerspring mattress, a TV, the floor-to ceiling hanging locker to port and starboard are cedar-lined closet, there are storage drawers in the base of the berth. as well as three large storage compartments under the mattress. The **guest cabin** is along the port side and has twin beds that can be converted to a queen with a filler cushion. The forward part of the cabin has stand-up headroom. and a cedar lined closet and four storage drawers. The separate fiberglass lined **shower** lies between the two cabins and is accessible from both. The **head** with a VacuFlush toilet and vanity with a Corian countertop is on the starboard side, with doors to it from both the master suite and the companionway.

Deck

One of the most striking features of this boat is the exceptionally large flybridge. There's comfortable seating for eight adults, including three abreast at the helm. An aft-facing bench backs up that seating, and another bench with a backrest along the port side faces forward along the aft bridge rail.

Along the port side of the bridge deck, there's a wet bar with sink and a refrigerator. Attached to the aft radar arch is a bimini with full enclosure which covers the cockpit.

The 38 Sport Bridge features the Silverton's SideWalk foredeck access. Stairways along each side lead down from the bridge to get to the sunpad or to handle the anchor and mooring lines at the bow. On the main deck level, the bridge overhang shades the cockpit, where there's room for a couple of deck chairs and a cocktail table. The large storage bin in the cockpit sole can serve as a fish box or be removed to provide access to mechanical space that includes an optional generator. An integrated swim platform is large enough to store an inflatable tender on its side.

- Maxwell Electric Anchor Windlass
- Flybridge Windlass Control
- Bow Roller with Anchor
