## Overview

---

She is one of the senior members of all the offshore boats, and one of the best high performance center consoles ever built. She is legendary for her speedy dry and stable ride. Her triple Yamaha 250 HPDI motors will run all day long at over 60 MPH. Her classic, clean lines and hull is made to withstand the rigors of big water. Her stepped hull gets her on plane in a heart beat, and is very stable at high speeds which makes her safe, and easy to run.

Add plenty of storage, a large center console (6'2" of headroom) which includes an all-important huge head with a sink and shower, a T-Top that was designed for the real world and is very well appointed with gold-tone rod holders, spreader lights (3), an electronics box and PDF storage. There is an integrated swim platform, full digital instruments, pressurized fresh water with a transom shower, and classic stainless steel hardware. So for sure you're ready to head out where the really big fish are.

She has (4) insulated fish boxes with overboard pump outs and sealed lids, a pressurized fresh & raw water system with a quick disconnects and plenty of rod holders. Her large coaming bolsters are just the right height and her cockpit is large enough for all of your friends to fish comfortably. The bolster style helm offers excellent visibility, super comfortable helm seats and a great foot rest. Wellcraft's 35 CCF is a high-performance center console whose principal mission in life is speed. Indeed, anglers who want to maximize their onsite fishing time will find a lot to like in the 35 Scarab. With her slender beam and offshore-proven deep-V hull, she's quick to accelerate and able to maintain speed even in a stiff chop. But the Scarab isn't just built for speed; she's a fully rigged fishboat with five insulated fish boxes with pumpouts, a 37-gallon transom livewell, and a transom bait-prep station with sink and cutting board. The console head, which includes a VacuFlush toilet with 10-gallon holding tank as well as a sink and shower, features a wide front entry door that lifts at the push of a button. There's plenty of space for electronics at the well-designed helm, and a drop-down bolster seat with tackle storage, 68-quart cooler, and rod holders were standard. A foldaway bench seat at the transom provides seating for guests.

## Basic Information

---

**Category:** Center Console

**Model Year:** 2005

**Year Built:** 2005

**Country:** United States

## Dimensions

---
