Overview

COMMENTS Built by the Taiwanese shipyard, Kha Shing which is also known as Montifino in 1993 "Supertoy" will appeal to an owner who is looking for a motor yacht with very large internal volumes and comfortable, spacious living accommodation. She is also available with her Port Vauban, Antibes berth, more details are below. "Supertoy" has an excellent charter history and is therefore ideal for an owner looking to offset some of the running costs. She is currently available for charter via OCI charter department. "Supertoy" is also maintained to high standard by a very competent crew. The Captain is also an engineer by trade and keeps on top of both the mechanical and electrical systems on board. "Supertoy" also benefits from a major recent refit which includes the following upgrades; The berth is available via separate negotiation. The lease will expire in 2021 but it is understood that it is likely to be extended by at least a further five years subject to clarification by the Capitainerie. The asking price for the berth is Euros 850,000 which is in line with other similar berths currently on the market within the port of Antibes. The current owner would also consider taking up to four weeks charter as part of the purchase price if this is of interest to prospective purchasers. The current charter rate is EUR 36,000 per week. NOTE - The main engines will be replaced in November/December 2015. The gearboxes will also be reconditioned.
