## Overview

---

ul.desList {list-style:initial !important; } ul.desList li {list-style:initial !important; margin-left:5px; }

At 74 feet overall and displacing 155,000 pounds, Magata is a serious transoceanic trawler, capable of taking you safely to any port of call. She offers uncompromising accommodations with three staterooms and three heads for owners and guests. The owner's stateroom is a full beam master with a walk around queen berth, in suite head and private stairwell. Crew quarters are provided by a fourth stateroom (twins) and full head aft of the engine room with private access from the cockpit which also has an on deck day head. The raised pilothouse provides panoramic views forward for the helmsman and includes a large dinette table to comfortably seat 4-5 guests while underway. Pilothouse Dutch doors on each side provide access to the Portuguese bridge with a walk through to the foredeck for anchoring. The covered side decks have wide walkways with high bulwarks for moving fore and aft safely at sea. Up on the flying bridge is an expansive dinette for entertaining with a serving bar, sink and barbeque. A factory fiberglass hardtop offers protection from the elements. Forward of the dinette are two helm chairs and an enclosed dash panel with a full complement of navigation electronics. Aft is the boat deck and hydraulic davit for launching the tender at a moment's notice.

Selene Ocean Trawlers are designed with a lower overall hull profile and superstructure than many other trawler brands, allowing for increased stability and reduced windage at sea while maintaining graceful lines and appearance. There are no sacrifices here in form, function, comfort, or sea-keeping ability which is why Selene Trawlers are the first choice among many experienced mariners.

Magata is presently located in Phuket, Thailand which is the perfect scenic central Asian location to begin your cruising adventures. She represents an excellent value at 1,950,000. Call today for details or to arrange a boarding appointment.
