Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Engines: 2

Manufacturer: Cummins

Model: 6BTA5.9

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Manufacturer Provided Description

Imported by Jefferson in the late 1980's, the 37 Sundeck combined a traditional teak interior with solid construction and contemporary styling. In most respects, the 37 is typical of most Taiwan yachts of her era. Construction is solid fiberglass, and her low deadrise semi-planing, solid fiberglass hull incorporates a (2) stateroom, galley down floor plan with a beautiful teak interior, a tub/shower in the aft head and a standard lower helm station. Wrap around salon windows provide plenty of outside natural lighting. One of the more attractive features of the Jefferson 37 is her spacious, full-width aft deck. The flybridge is arranged with the helm mid-bridge and guest seating forward. A bow pulpit, radar arch and swim platform were standard.

The 250hp Cummins diesels will cruise the Jefferson 37 Sundeck at a modest 15-16 knots and deliver a top speed of just under 20 knots.

Vessel Walkthrough & Accommodations

ALESSANDRA has the popular (2) stateroom layout. The Master Stateroom has a centerline marine queen berth, full head with large separate shower, lots of drawer & closet space. All wood is teak throughout. Salon has lower helm station to starboard. To port is the TV and storage for the entertainment system. There is a comfortable sofa & chair. The galley is (3) steps down, with full galley to port. with a convertible dinette that seats (6) to starboard. The Guest Stateroom forward has offset Queen to starboard with drawers and hanging lockers. The head is to port and a full shower to starboard. Aft deck has hardtop, full wet bar with Uline ice maker and sink. Large flybridge has seating for (6).

- Aft Master Stateroom with island queen berth
- Master ensuite Jabsco electric headwith separate shower
