DETAILED INFORMATION

Walk Through

BIG BLUE is probably the nicest kept, lowest (only 1250) hours, best overall condition 64' Viking Convertible currently in the market. The present owner has taken meticulous care of her with an open checkbook and a diligent crew. Recently having received new hull paint and a freshly painted black forward mask, she sparkles from top to bottom. Fully tower rigged for tournament fishing and long range cruising, BIG BLUE is ready to take you to the fishing grounds wherever they might be. She is a must see for anyone seriously considering the purchase of one of Viking's best models of recent years.

Walk Through:

BIG BLUE is loaded with upgrades, a second Onan generator, watermaker, Eskimo Ice machine, custom bow rail, upgraded interior finishes and much more.

Starting in the cockpit, a large Release Marine custom fighting chair/rocket launcher dominates the space and forms the focus of the fishing action. The large in deck fishboxes and transom live well, storage freezer and refrigerated drink box, gaff storage boxes under the gunnels, mezzanine seating, and upgraded cockpit stereo system round out the amenities in this area.

Proceeding through the starboard side entry door, we enter the main salon of the boat featuring the famous Viking high gloss teak interior cabinetry with a cherry and holly Amtico wood floor in the companionway and extending through the galley and dinette areas. The salon area is carpeted with an unusual L-shaped settee facing aft allowing the guests and crew easy viewing of the cockpit action through the enlarged custom size, glass picture window in the aft bulkhead. To starboard is the entertainment center with a Bose Home Theater system mated to a large 42" pop up Fujitsu plasma screen high definition TV. Bar storage and a large capacity Kenmore Elite ice maker are hidden in the cabinetry in this area.

The galley contains generous storage and granite surface counter top space along with triple Sub Zero drawer refrigerator/freezer units. A three burner ceramic cook top and a Sharp Carousel Microwave/Convection oven round out the galley appliances. Opposite is the dinette with a granite top table.

The custom décor package features the upgraded granite counter and dinette tops, teak soffits, woven leather lambrequins, and many other luxury fabrics and finishes throughout the interior.

BIG BLUE features the preferred four stateroom, three head interior layout with the athwart ships master berth and full width closet across the aft master stateroom bulkhead. All the way forward is the VIP guest stateroom with oversize vee berths and a private head. Aft to starboard is the spacious third stateroom with side by side twin berths and private entrance to the third head which also functions as the fourth stateroom/day head. The fourth stateroom is located forward along the companionway and contains upper and lower bunks, hanging locker, and storage

drawers.

Back in the cockpit, the enormous flybridge is accessed by the ladder to starboard. On the flybridge the focus of attention is the fully instrumented helm area with custom Release Marine helm and companion seats. Forward of the helm are huge refrigerator/freezer units built into the large L shaped seating area for guests and crew. To starboard is a long bench/storage seat with a reversible seat back allowing the occupant to watch the baits and view the cockpit action. Ladders aft allow access to the full tuna tower above.

Finally, BIG BLUE's spotless engine room is fully Awlgriped and exhibits all the engineering and attention to detail that Viking is famous for. The twin 2030 HP 16V2000 M-91 MTUs constitute the heart of the boat and the two Onan generators provide ample electrical service for all its power requirements. The Sea Recovery water maker and Eskimo Ice Maker are located outboard and provide a more than ample supply of both. An Algae-X fuel cleaning system is installed that is capable of cycling and cleaning the fuel in the tanks while the boat is underway. Centerline between the engines is a small toilet for emergencies and to keep the interior clean when people are fishing.

SALON

- Premier edition décor
- CruisAir air conditioning with digital control and reverse cycle heat
- New rope lights
- Teak & Holly Amtico floor and carpet in galley, companionway and dinette
- Carpet in companionway and dinette
