Overview

The "Haggis XII" may be the best 56' Sedan Bridge Sea Ray now for sale.

The owner has a history of maintaining his boat in an exceptional fashion. The boat is waxed regularly, haul-out every year and constantly kept looking fresh, clean and ready for use.

The electronics are up-to-date. Most of the canvas pieces were recently replaced. The dinghy is just about a year old. The outboard motor has about 4 hours on it.

Her Twin MAN with 1050HP diesels have less than 1400 hours and the MAN inspection was completed at 1200 Hours.

The photos don't show "Haggis XII" adequately. She is easy to see in a gated community in Palm City just North of Stuart.

DETAILED INFORMATION

Overview

From stern to stern, the layout of the 56' Sea Ray is ideal for Family cruising, especially in South waters. Starting at the Bow, there is a spacious foredeck with full railing, stainless steel anchor chute and windlass with a plow anchor and chain. Of course, there is the double Bunny Pad and side decks. All the way aft is the Hydraulic lift for the dinghy and a gate leading to the aft deck. Access to the engine room is through a hatch in the cockpit sole. Wide stairs lead up to the flying bridge and sliding glass doors open to the salon. Settees flank both sides of the salon with wonderfully large windows that bring lots of natural light and are low enough so the passing view is easy to see. Going forward, a dinette is to, port and the galley to starboard, both with matching granite tops and beautiful high gloss cherry woodwork. Abundant storage is everywhere. Stairs to the staterooms are in the center line down four steps with the two guest staterooms on either side. Just forward of the starboard stateroom is the door to the guest head which serves as a day head as well. The port room has upper and lower berths while the one to starboard has a queen size double.

All the way forward is the master stateroom with a massive center line bed, more than ample storage, access to the private master head, and an escape hatch over the bed.

Up on the flying bridge, there is a settee at the aft end just behind the helm and companion chairs. The layout of the console has everything in easy reach and great 360 degree visibility. The enclosure has six U-Outs to allow for the breeze to pass though. Forward of the helm console is another seating arrangement with a bar on the starboard side. As many as eight people can sit comfortably on the bridge.

Salon

This is a large spacious area with big windows providing great views. The port settee has storage beneath it. Under the starboard settee is a hide-a bed for two. Both are done in an off-white ultra leather. The decor is beautiful with high gloss cherry woodwork, beige carpeting, white blinds, and an exceptional entertainment center. Lighting is from the overhead as well as indirect lighting under the settees. All switches and AC controls are within easy reach.
