SPECIFICATIONS

Overview

The Contender 33ST took its segment by storm when it was released in 2009, raising the bar for performance and fuel economy while retaining Contender's legendary ride and fit and finish. The 33ST built on everything that made the 33T great, including the spacious deck layout designed with serious fishing in mind, and added a stepped hull to literally propel the 33ST past the competition. In addition to the top speed gained by incorporating the steps into the hull efficiency is increased as well, allowing you to spend more time on the water and less time at the gas dock. This 33ST was built with triple Mercury Racing 350 SCi Verado engines, putting you in control of over 1000 supercharged horsepower. On top of the high-performance aspects of this boat you'll find an array of custom features, including a state-of-the-art electronics package complete with dual-camera Hot Eye Night Vision system and underwater lights, allowing you to get to the furthest fishing grounds faster, day or night. This 2009 Contender 33ST has been professionally maintained by a captain, and is ready to take your fishing game to the next level.

Basic Information

Category: Center Console

Model Year: 2009

Year Built: 2009
