SPECIFICATIONS

Overview

This is the ONLY Sciallino S30 in the United States currently! If you are looking for a quality built pilothouse / fast trawler this boat fits the bill, while also always being the topic of conversation at the dock!

This boat has a single Yanmar 6LP-STE-97 for power, so the boat is very fuel efficient. The generator is a MASE 4kW diesel unit, that is in a sound shield box. Both the engine and generator have very low hours.

Storage is everywhere in this boat, and with the sliding glass doors that close the cabin, along with the A/C + Heat unit, this boat is very easily cruised, no matter where you would want to go.

Sellers are looking for serious offer for this unique vessel.

Accommodations

Total Cabins: 2

Hull and Deck Information

Hull Material: Fiberglass

Engine Information

Engines: 1

Manufacturer: Yanmar

Model: 6LP-STE-97

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Helm & Salon Area

The helm is well outfitted with a Garmin 2010C GPS/Chartplotter unit, with the BlueChip maps for Florida & The Bahamas. The helm has a commanding view of the bow, and there is excellent viability all around.

To the port side of the helm is the salon sitting area. The owners of this boat ordered an upgraded leather package, so the seating is very luxurious, and the white color brightens up the entire area. The leather is very clean, and easy to clean.

The dinette area has a good sized table, and that table can be lowered so that the dinette area can become another berth for two more guests. There is a leather cushion insert that goes over the top of the table.

Accommodations

The master V-berth features an island style bed, with storage both under the bed and to the starboard side. The master berth has a solid pocket door for privacy.

The guest berth features twin bunks on the port side of the boat.

The head is directly to starboard from the guest berth. The head has a good sized sink, a Jabsco pump style head, and a full shower.

Galley

The galley is aft of the helm station. The sink and stove plate are easily covered and out of the way when the wooden cover is lowered.

Below the sink and stoveplate, there is a microwave/toaster oven combination unit, along with a cutting board just above.

The galley is well laid out, and for a boat of this size very easy to use.

Electronics

- Depthsounder
- Compass
- VHF
- Plotter

- GPS

Electrical Equipment

- Shore Power Inlet
- Inverter
- Generator - MASE 4kw (110 hours)
