Hull Material: Fiberglass

Engine Information

Engines: 2

Manufacturer: Volvo

Model: IPS

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Walkthrough

This Sovran continues the Tiara Yachts tradition of quality and engineering by taking full advantage of Volvo IPS technology. The IPS 500 joystick control aids in easy handling. The noise and fume reduction, and fuel efficiency are also benefits from this system. The full complement of IPS technology delivers 360-degree direction control at your fingertips. By utilizing the space advantages of the IPS drive in a single stateroom layout, Tiara Yachts designers have been able to open up the salon and increase the size of the head, including a full-frame door and stall shower. The extra space is also put to practical use in a step-down lounging area. The 3900 Sovran is a uniquely livable single-stateroom floor plan that's ideal for cruising. Its living space is well thought out and fitted out with traditional Tiara Yachts attention to quality.

The Volvo IPS® technology for precise handling, less noise, low exhaust fumes and greater fuel efficiency. This Yacht is equipped with the IPS 500's for the optimum combination of performance and fuel economy.

Salon

- Teak companionway entry steps
- Companionway safety handrails
- Bose 3-2-1 Media / entertainment / system with DVD/CD player and video game / iPod / MP3 port. Integrates with flat screen
