## Overview

---

This Viking 74 Enclosed Bridge Convertible is a fast, long range motor yacht with the speed, handling and sea keeping ability of an offshore proven tournament sport fisherman with great looks to match! From the initial launch, this design has grown more and more popular with cruising yachtsmen who want Viking's well-documented performance with a climate-controlled helm. One of the later enclosed bridge 74's, she has the preferred MTU 2400 HP and is the desired 5 stateroom layout. Although this boat is fish equipped, she has been fished little. She has an extensive electronics package and has been captain maintained since new. You will not find a nicer equipped example of this very popular model. She is beautiful and has it all, including thru-hull sonar to find whatever you are looking for!
