SPECIFICATIONS

Overview

Recently contributed to AMIkids and is now available with interest free terms to qualified individual. The NISI GTX 50 was chosen as a finalist for the 2014 World Yachts Trophy for "Most Innovative Design" among yachts under 24 meters in September 2014.

This 2015 Nisi GTX50 is a supreme cruising vessel combining a 24-foot beam with the Cummins 6.7L Zeus pods to provide unparalleled stability. The layout of this power cat is focused on maximizing interior and exterior volume. The light colors united with the spacious and well-lit interior accentuate this vessel's elegant and relaxing atmosphere.

With under a 4-foot draft and over a 400 nautical mile range nowhere is off limits. The GTX50 allows you to easily tie up to a buddy boat using its joystick controls, or drop anchor with the touch of a button for a day of fun in the sun. Simply open the rear sliding glass doors and the one level main deck gives you an abundant amount of space for relaxing or entertaining. The submersible swim platform ensures an effortless launch of a tender, and doubles as a great place to sunbathe or relish in the water.

Basic Information

Category: Catamaran

Model Year: 2015

Year Built: 2014

Country: United States

Dimensions
