SPECIFICATIONS

Overview

A unique design by Carver. The 350 Carver Mariner features extra wide single level side decks from the flybridge to the bow. By positioning the side decks high above the cabin, Carver has created an extra wide cabin that many motoryachts simply don't have because of their lower side decks. She offers portside Galley and Dinette w/ forward queen-berth in the master cabin. This particular yacht has the optional generator as well as low hours on it's fresh water cooled engines.

She is an excellent clean and turnkey vessel that is stored in a cover slip since 2007. Vessel shows very well and it's interior and exterior are in very good condition. If this is the type of vessel you are looking for, you will not be disappointed.
