Hull Material: Steel

Deck Material: Teak and Steel

Hull Configuration: Round Bilged
Displacement

Hull Color: Blue

Hull Finish: Stainless Steel

Engine Information

Engines: 2

Manufacturer: John Deere

Model: 6068TFM

Engine Type: Inboard

Fuel Type: Diesel

DETAILED INFORMATION

Accommodations

The saloon is entered from the aftdeck, at the same level. The entrance doors are folding and made of stainless steel. The interior is made in cherrywood with floors in solid cherry with ash detailing. A U-shaped sofa and electrical folding table are on starboard. Views all around are perfect. Lighting is a mix of halogen spots and indirect LED lighting (also for night light purposes). Switches and wall sockets in high gloss stainless look.

Opposite the sofa are cabinets which also integrate a TV on an electric lift and a sound system. The galley is on portside, is U-shaped with cabinets and cupboards, a 4-ring ceramic cooker, microwave, dishwasher, extractor fan, fridge and freezer. All worktops and floors in the galley are Corian.

The interior helmposition is just forward of the galley and is equipped with a full-glass bridge navigation system, usually only found in much larger yachts. This is repeated on the exterior helmstation on the flybridge.

On the starboard side of the helmstation is a very comfortable forward-facing sofa with excellent views all around, and a charttable.

Steps forward lead down to the owner's cabin and two guest cabins. The owner's cabin has a double bed (210 cm), ample lockers and cabinets, and a bathroom with shower, rainshower, toilet and sink ensuite. Bathroom has Corian floor with underfloor heating and Corian worktop. Design radiator for towels.

The guestcabins are equipped with twin beds (200cm) and share a second bathroom with shower, rainshower, toilet and sink. Bathroom floor is Corian with underfloor heating and Corian worktop. Design radiator for towels.

Blinds are provided everywhere.

Exterior

The aftdeck has a large, hydraulically operated swimplatform. The platform has integrated hydraulic davits for a tender, and a hydraulic swimmingladder. There is a deckwashpump and a shower.

The aftdeck and swimplatform are covered with teak, as are the sidedecks, foredeck and flybridge. The aftdeck/cockpit is selfdraining. The entrance to the huge lazarette is via an electrically operated hatch in the cockpit and the entrance to the engineroom is situated under the flybridge stairs which fold up hydraulically.

The sidedecks each have a sliding door, allowing access into the wheelhouse. The foredeck has a seating area and two anchorwinches.

The flybridge is selfdraining and has a sundeck with bimini. L-shaped seating with storage underneath. The helmposition is adjustable in height (electrical). Mast for radar and antennas lowers hydraulically and allows for minimal aidraft of 3m45.

Electronics

GPS Radio Log-speedometer Repeater(s) Autopilot TV set Compass VHF - Raymarine AIS Depthsonder Radar Navigation center Plotter Radar Detector

Electrical Equipment

Shore power inlet - 2 x 16Amp on fore and aft ship Generator - Fisher Panda 21.9 kVA Inverter - 3x Victron Quattro 24V/5000W/100A

Interior equipment
