SPECIFICATIONS

Overview

This is an ocean ready 50' Catana owner's version which has seen very little use.

The current owners bought her straight for Catana in October of 2014 and spent two months in France getting her ready for the ocean crossing to the Caribbean. They renewed all her safety gear, installed AIS and put a full diving equipment on board including a Bauer Jr. compressor and four tanks (diving equipment and compressor can be purchased separately).

Their plans have changed due to business concerns back home and have now put the vessel back on the market.

They went through the engines and replaced the turbos, exhaust elbows, service the coolers and water pumps.

This is owner's version which has never been chartered. She features carbon mast and bowsprit and Kevlar shrouds. Down below has washer/dryer, air conditioning throughout, watermaker and entertainment systems.

Here is a complete list of what this yacht has to entice it's new owners
