# SPECIFICATIONS

---

## Overview

---

The almost new GM 5.7 liter gas/petrol engines have only 130 hours. Your writer has observed this vessel being maintained within a city block from my home for over 20 years. The maintenance throughout has been of the highest order throughout this period and her condition today certainly reflects this. The layout with two separate staterooms each with full separate bath and shower (one stall, one phone cord) along with a full stand up refrigerator in the main salon seem improbably large for a vessel with this LOA. Her very full inventory of equipment comes complete with lines, fenders, cables, hoses, flares, fire extinguishers and life jackets ready to cruise tomorrow. Have a look at what privacy and spaciousness can be yours for under \$ 50,000.

## Basic Information

---
