SPECIFICATIONS

Overview

Silver Princess 530

This gorgeous new power catamaran has huge interior volume. Built in Thailand from a Canadian 'Concordia' design, this is the perfect boat for a passenger shuttle, for day trips snorkeling, sightseeing or as a charter boat. Her twin hull design means that she tracks efficiently and economically through the water. It also means that in use as a resort boat or day charter boat, that she is safe and stable. This design minimizes rocking & heeling, so seasickness is significantly minimized. As a result, your customers and patrons will have a comfortable and memorable trip. Her dual swim-step allows easy access to and from the water for snorkelers and her shallow draft permits the skipper a close approach to the shoreline and also passage in shallow waters that would prevent most boats with this kind of passenger capacity.

She is Thai registered and licensed to carry 45 passengers plus a crew of 5 and can accommodate as many as 100 passengers for a dockside soiree.

Her double cabin layout sleeps four and provides flexibility so that she could be used as a live-aboard for an owner / operator or booked for a special, romantic overnight room rental venue.

The contemporary interior is perfectly suited to accommodate a large group of passengers without sacrificing comfort. There are several separate socializing areas where people can congregate with friends & family.

The boat has its own on-board diesel power generation system so that even away from the dock, you have power for the coffee pot and all of your other critical systems. LED lighting, on-board wi-fi hotspot, the smooth ride and many other features come together to make this an excursion boat that your customers and guests will remember and make note of in TripAdvisor.com as one of the things that sets your resort apart from the others. Crew placement and vessel management services are available on this beautiful yacht.

A larger version, with overall length of 71' (21.6 meters) is currently under construction. It will accommodate 100 passengers underway and up to 200 for dockside events. Call for details.
