SPECIFICATIONS

Overview

Dutch design, Thai craftsmanship and the finest materials come together to forge this iconic masterpiece.

Traditional materials such as teak and modern boat building techniques using vinyl ester and epoxy resins combine to create the light weight Montebello Classics. Performance and stability at top speeds are achieved with this light weight hull designed by Van der Stadt. The luxurious fit out is hand crafted and the highest quality finish achieved using the best marine grade varnishes and application techniques. The latest proven manufacturing techniques and trained skilled boat builders are used in all facets of a Montebello build. From hull construction to the final fit out, high performance, seaworthiness, quality and style is the priority in every vessel Montebello builds.

Built strong and light weight to CE classification for coastal waters and lakes. The hull is constructed with sandwich core P.V.C foam from Diab and hand laid up system. Construction of hull under water is solid fiber glass coated with 5 layers of epoxy coating to guarantee the utmost quality and durability.
