Beam: 5' 8" (1.73m)

Speed, Capacities and Weight

Displacement: 694 Pounds

Hull and Deck Information

Hull Material: Other

Engine Information

Engines: 1

Manufacturer: Weber

Model: MPE750 2 cylinder

Engine Type: Inboard

Fuel Type: Gas/Petrol

DETAILED INFORMATION

Manufacturer Provided Description

The Turbojet 325 will rocket from standstill to 20 knots in four seconds flat and won't stop until the far side of 40 knots. In common with the entire Turbojet range, such performance is made possible by the torquey 98hp Weber engine driving through a high performance pump system. The Turbojet 325's spacious layout can accommodate four adults and one child in comfort, with luggage stowed in the forward locker and under the central seat. Her hull length promotes excellent low speed planing ability, giving a supremely stable platform for safe embarking/disembarking. As with all Turbojets the fuel economy is impressive, giving extended use between refuelling for true coastal cruising capability. A qualified choice for the discerning yacht owner.

Standard Features
